Quarantine Flow Chart

Someone in the school setting tested positive

You were a close contact with an asymptomatic individual 48 hours **prior** to the individual testing positive.

You were a close contact with a symptomatic individual 48 hours **prior** to the individual's symptoms appearing.

- Quarantine for 14 Days
- Contact your clinician
- Monitor your symptoms
- *Recommended to be tested 5-9 days after last exposure to the close contact*

Clinician recommends testing and you test **positive**

You must isolate at home for 10 days.

Clinician recommends testing and you test **negative**

You may return to school upon completing your 14 day quarantine.

Siblings and other household members should follow instructions for **Someone in the house** flowchart.

Someone in the house

Was identified as a close contact of someone testing positive for COVID-19 and is completing his or her 14 day self quarantine after being a confirmed close contact to someone outside of the home setting.

You may return to school unless the individual tests positive for COVID-19. Follow the guidelines for ***separating within the home** in the home. If able to ***separate within the home**, an individual may return to school/work.
Anyone who cannot separate must be excluded from school/work.

Has tested **positive** for COVID-19 and you are unable to ***separate within the home** in the home setting.

You will need to quarantine for 24 days if remaining asymptomatic while the diagnosed member of your family completes his or her 10-day isolation in the home, **PLUS** spend an additional 14 days in quarantine to ensure you pass through the viral incubation period.
IF you are able to strictly observe the guidelines for **separating within the home** **AND** the members of the household are *completely* **asymptomatic**, the return date may be 14 days.

Has tested **positive** for COVID-19 and is **ABLE** to ***separate within the home** in the home setting.

You must quarantine for 14 days after your last exposure to the household member.

***Separation within the home**

Quarantined individual must have a separate bedroom, a separate bathroom or clean bathroom after each use by the person in quarantine, maintain social distance of > 6', and mask wearing in home by the person in quarantine.
